

TAREQ JUDEH

Fullstack Web Developer (ASP.NET Core / React.js)

 +962 79 6969 904 | Amman, Jordan | tareq.joudeh@gmail.com | [Portfolio](#)

PROFESSIONAL SUMMARY

Highly motivated and persistent Fullstack Web Developer with a deep, lifelong passion for IT and a proven track record of mastering complex modern architectures through self-directed study. Adept at building secure RESTful APIs with ASP.NET Core and designing responsive, interactive user interfaces with React.js. Exceptional troubleshooter who thrives on solving tough backend and data-fetching issues. A mature, collaborative professional who brings diverse industry experience, an eager-to-learn mindset, and a natural ability to motivate and support junior team members

TECHNICAL SKILLS

- **Backend:** C#/.NET OOP, ASP.NET Core Web API, MVC, EF Core, MS Identity, LINQ
- **Frontend & UI:** React.js, Redux Toolkit, RTK Query, JavaScript, TypeScript, HTML5/CSS3, Material UI, Tailwind CSS, Bootstrap
- **Databases & Cloud:** MSSQL, Microsoft Azure (App Services, Azure SQL), Cloudinary API
- **Tools & DevOps:** Git, GitHub Actions (CI/CD), Postman, Linux CLI, Ubuntu, VS Code, VS 2026
- **AI & Productivity:** GitHub Copilot (Chat & AI-driven code optimization, advanced debugging)
- **Design & Media:** Adobe Photoshop, Illustrator (2D/3D Asset Integration)

SOFT SKILLS

- Analytical thinking and problem-solving
- Clear Communication & Active Listening
- Collaboration, Adaptability & Time Management
- Self-Directed Learning & Initiative

WORK EXPERIENCE

Fullstack Web Developer (Independent / Project-Based) | Sept 2025 – Present

- **Fullstack Architecture:** Designed and deployed responsive, user-centric web applications and landing pages using ASP.NET Core Web API and React.js
- **Live Project – Winter Adventures:** Architected, built, and deployed an e-commerce platform for winter sports gear (ski clothing, goggles, boards) featuring a decoupled architecture using ASP.NET Core Web API and React.js.
 - **Live App:** [Winter Adventures](#) - **Source Code:** [GitHub](#)
- **Security Pipelines:** Secured application frontends using MS Identity cookies and built robust backend validation layers to immunize APIs against SQL injection and XSS vulnerabilities
- **Database & Optimization:** Implemented efficient relational database schemas with EF Core Code-First migrations and optimized Azure SQL queries to slash API response times by 20%
- **State Management:** Streamlined asynchronous server data-fetching and caching across UI components utilizing Redux Toolkit and RTK Query
- **DevOps Automation:** Configured automated CI/CD deployment pipelines using GitHub Actions to seamlessly host applications on Azure App Services
- **AI & Productivity:** Leveraging modern AI developer tools to write cleaner code, fix errors quickly, and speeding the workflow

TAREQ JUDEH

Fullstack Web Developer (ASP.NET Core / React.js)

 +962 79 6969 904 | Amman, Jordan | tareq.joudeh@gmail.com | [Portfolio](#)

Freelance IT Support & Project Manager | March 2005 – Dec 2024

- **Dual-Industry Delivery:** Parallely managed regional operations in the construction/housing sector alongside IT support contracts, driving projects from initial blueprint/architecture stages through to client hand-off
- **Infrastructure Management:** Provisioned, diagnosed, and maintained secure network architectures, server protocols, and hardware setups for small business offices and technical environments
- **Client Relations & Training:** Provided technical training to client representatives, simplifying complex system functionalities into accessible business concepts
- **UI/UX Asset Preparation:** Utilized Adobe Photoshop to enhance digital imagery and build optimized graphic assets for client interfaces

ERP Technical Support Officer | Al Ghasaq Computer Systems / Houston Tech | 2000 – 2005

- **Data Migration & Testing:** Executed high-accuracy financial data migrations and quality control testing for client ERP installations across major hospitality venues
- **Junior Training:** Led technical training and onboarding for junior technical support employees, fostering team collaboration and performance

EDUCATION & CERTIFICATIONS

- **CS50x: Introduction to Computer Science** – HarvardX, Harvard University
- **Full Stack Web Development Bootcamp (ASP.NET Core & React)** – CoderZ (Accredited by Talal Abu-Ghazaleh)
- **Microsoft Certified Solutions Associate (MCSA)** – Windows Server
- **Bachelor's Degree in Accounting** – Applied Science University, Jordan

TECHNICAL PROJECTS & INTERESTS

- **Open-Source Games Modding:** Collaborate within global development communities to alter simulation game engines. Write custom Lua scripts and design 2D/3D visual textures via Adobe Photoshop to seamlessly integrate new audio-visual assets
-
